

45 Days JAVA Programming BROCHURE

Connecting The Unconnected

ABOUT US

We are a fast emerging company imparting quality and affordable programs for colleges and individuals for digital economy skills training, internship and guidance focused on helping people develop the skills they need to thrive in the rapidly growing digital economy.

The IoT Academy has made a niche name for itself providing rigorous online/offline training in Data Science, Machine Learning, AI, Python, Java, Internet of Things (IoT), Embedded Systems, Big Data, Data analytics, Industrial IoT, Industry 4.0, Digital marketing, Etc. Based in Delhi NCR since 2017 we have helped 150+ professionals, 600+ students and 100+ faculties across the states get trained, acquire certifications, and upskill their employees.

MISSION

We aspire to provide learners an edge over the career they choose to stand out amongst today's competitive world through support in training and various academic and industrial collaborations.

VISION

At IoT Academy We believe that the future is about Unified and Converged technologies as reflected in our mission statement. Every aspect of life will eventually lead in bringing forth a unified world of immense possibilities.

Our Services For Educational Institutes

Lab Setup

We provide hardware and support in lab setup for IoT and LPWAN.

Workshop/Seminars

We conduct workshop and seminars on emerging technologies which are given by industry experts.

Center of Excellence

Under our 'Center of Excellence' offering we provide all the services apart from encouraging R&D and entrepreneurship efforts by guiding both faculty and students.

Faculty Training

We provide training to faculties of educational institutes under our 'Faculty Development Program' so that they become aware of how new technology is used in industry and they can impart the same knowledge to their students.

Student Training

We provide training to students on various topics including the emerging technologies which are targeted towards making them more relevant and employable as per the industry.

Our Services For Students

Internships

We provide internships to students where they are able to work in a professional environment and learn a lot.

Projects

We help students design and implement projects whether a small one or a big one on any topic within the scope of all the subjects that we provide training for.

Placements

Our complete training programs comes with 100% placement guarantee as the courses are designed specifically keeping enhancing skills for jobs in mind.

Summer/Winter Training

Short duration trainings during summer and winter breaks are designed keeping school & college students in mind. Our aim is to give in-depth knowledge to students on a particular topic of their choice within the time frame.

Training

We provide training to students on various topics including the emerging technologies which are targeted towards making them more relevant and employable as per the industry.

Course Curriculum

01 CORE JAVA Programming

- Introduction To Java
- Language Fundamentals
- Operators & Expressions
- Flow of Control
- Modifiers, Encapsulation and Sub-Classing
- Polymorphism and Inheritance
- Abstract Classes
- Interfaces and Multiple Inheritance
- Exception Handling
- String Processing
- Generics and Collections
- Multi-Threading In Java
- Garbage Collection
- Overview of JDBC with MySQL
- Additional Concepts
- The JVM Architecture
- About MySQL & Its Features
- DDL Statements
- DML Statements
- CRUD Operations

MY SQL QUERIES

- About MySQL & Its Features
- DDL Statements
- DML Statements
- CRUD Operations

Project

- One Console Project

Flexible Batch Timings

Classroom Training

Weekday Batch
MON - THU

Duration
45 Days

Weekend Batch
SAT & SUN
